

Krüsi history

Find out more about our most important milestones here.

- 2024** Krüsi Mechanical Engineering Days 25 and 26 October 2024 for all interested parties
- 2021** 60th company anniversary with a new marketing presence
- 2019** Design and development of the BF-19 tiller
- 2018** Design of our new homepage
- 2015** Design of the "PowerCut" MC-15 machine centre
- 2014** Hosting of the "1st Krüsi Technology Day" and "Open Day" for the general public
- 2014** The Krüsimatic is equipped with the new Heidenhain iTNC 530 control system
- 2008** Urs Iseli succeeds Fritz Krüsi as Managing Director
- 1998** Design of the vertical longitudinal circular saw (VLKS)
- 1997** Cutting-to-length and dovetail groove milling machine
- 1995/96** Design of the Krüsimatic joining centre (G1 and G2)
- 1989** Transformation of the sole proprietorship "Fritz Krüsi" into "Krüsi Maschinenbau AG"
- 1987** Design of the double-sided end-groove milling machine
- 1985-87** Design of the "Lignamatic", the world's first CNC-controlled processing centre with automatic tool changer
- 1985** Design of the glulam cross-cut saw (LAK)
- 1985** Design of the chalet construction machine for round logs (CM-R), chalet knitting machine (CS) and glulam cross-cut saw
- 1983** Design of the glulam cross-cut saw
- 1982** Design of the slotting machine for connector plates (ES) and the miter circular saw (GKS)
- 1980** Design of the dovetail milling machine "SF"
- 1978** Design of the double-sided chalet construction machine
- 1977** Purchase of the Bleiche site as a new production location in Wald-Schönengrund
- 1976** Design of the first self-supporting longitudinal circular saw
- 1972** Design of the chalet construction machine "CM-40"
- 1970** Enlargement of the workshop in Schönengrund
- 1968** Purchase of a long planing machine
- 1967** Design of the rip circular saw "LKS"
- 1966** Design of the carpentry joinery machine "ZA-66"
- 1964** Expansion of the company premises
- 1963** Design of the mobile double cross-cut saw "FAS-14"
- 1962** Design of the double cross-cut saw "AS-14"
- 1962** Relocation of the company headquarters to Schönengrund/Appenzell Ausserrhoden

- 1961** Foundation of the company “Krüsi Maschinenbau, mechanical workshop” by Fritz Krüsi in the garage of his home in St. Gallen
